

interRel Named One of the Top 100 Fastest Growing Tech Companies on CRN's 2010 Fast Growth List

Collaborate 2011, ORLANDO, FL April 12, 2011 –interRel Consulting proudly announces that it has been recognized by Everything Channel on the CRN Fast Growth 100 list as one of the top 100 fastest growing tech companies in America. The list recognizes solution providers with growth rates in excess of 26 percent, average two-year revenue growth of 110 percent, and average annual sales of products and services of \$120.8 million. The ranking is based on two years' growth of net sales from calendar year 2007 to calendar year 2009. Click [here](#) for complete results.

interRel's primary reason for continued growth is one of their founding principles: educate the world. Add to that their amazing track record of success and it will come as no surprise that they're the 63rd fastest growing tech company in America. Whether educating through twice-weekly webcasts, our published books on Oracle EPM or evangelizing Oracle EPM through various outlets including local and national user group conferences, co-marketing events with Oracle, and social media resources, interRel's clients know that not only are they working with the leading edge Oracle EPM consulting company who prides itself on staying ahead of the learning curve, they are going to get insight into the future directions of Oracle Hyperion products. With **three** Oracle ACE Directors, interRel gains access to strategic information regarding the direction of the Hyperion and Oracle EPM products.

"The Fast Growth 100 are channel innovators and mavericks who are growing in considerable size and influence. As business-oriented IT consultants, these organizations work closely with customers to identify multivendor IT solutions to solve their business problems. We congratulate interRel Consulting on their well-earned success despite current economic conditions," said Kelley Damore, Vice President, Editorial Director for Everything Channel.

"The Fast Growth 100 list is made up of solution providers, resellers, VARs, outsourcing firms and consultants that have had impressive growth rates between 2007 and 2009. We are honored to be recognized on this impressive Fast Growth 100 list especially considering the representative years were during the throes of recession," said Eduardo Quiroz, COO, interRel Consulting. "We opened our doors for business 14 years ago so reaching this pinnacle of success has truly been exciting."

"I'm shocked that we're the only dedicated Hyperion partner on the Fast Growth list. With the tremendous expansion in the world of Oracle BI and EPM, we expect to see some of our competition joining us on the next list," added Edward Roske, CEO of interRel Consulting.

About interRel Consulting

interRel Consulting, Oracle's reigning EPM & BI Partner of the Year, is a services organization focused exclusively on implementing Hyperion solutions. Since 1997, we have attracted and developed the top talent in our industry. Our senior consultants are **all** Hyperion Certified, and we have the highest quality standards of any Hyperion consulting partner. We are headquartered in Dallas and service our customers throughout North America. interRel provides implementation consulting, on-site & classroom training, web-based & phone support, and infrastructure consulting to clients ranging from the Global 500 to mid-size companies as well. Home to **three** Oracle ACE Directors, interRel also publishes several books on Hyperion under the "Look Smarter Than You Are" series. Recognitions include one of Inc. Magazine's fastest growing companies in America in 2008, 2009 & again in 2010. For more information, please visit www.interrel.com.
